

Ms A Akhtar is our Designated Child Protection Officer . If you have any safeguarding concerns please arrange to meet her.

Reception visit Build a Bear workshop in Westfield Stratford.

Elizabeth and Yanika told me about their visit.

We went to Westfield to Build a Bear. Lots of the mums and dads came with us. We had to close our eyes and make a wish on a red heart. All our hearts and wishes are in our bear.

Mr Woodward chose the clothes and the hat.

We called our bear DDbearspidersaurus.

We had fun.

Hakam

Half term is for one week starting on the 15th February. We are going to take part in a record breaking bumper book quiz after half term. So get reading!

World book day is on 3rd March. The school council are talking to their class about the day but dressing up as a character from a book is popular.

### New links on our website

On the safe school page there is link to  
[www.educateagainsthate.com/parents](http://www.educateagainsthate.com/parents)

On the children's page year 6 have a video for parents with information about the tests in May. There will be a similar video for parents of children in year 2 soon.

Timothy Peake also known as Tim Peake is the first British astronaut to go to space with the ESA (European Space Agency). Why don't you visit his blog <http://timpeake.esa.int/?> You can access it from the school website, learning page-whole school events. He has written his own biography, there are also videos on the website where you can learn about the astronaut suits and much more.

### Year 2 go to London Zoo

It was an educational trip as they were learning about different types of animals such as marine animals, reptiles, insects and mammals.

The children enjoyed the visit even though some of them found the animals scary.

Ayaan, said "It was really fun and we went in groups around the zoo".

Kamilah thought that it was awesome. She said "We saw one tiger and some monkeys, there were also two big shops. We found it exciting as it was interesting to see the animals.

We saw penguins and gorillas, they are mammals. We saw fish lots of fish, really big ones and we saw turtles."

Kamilah added,

"We also had a very long walk which I didn't like it because my feet were hurting."
