

**90.41% Of parents said 'My child knows the behaviour 'Golden Rules' of the school, when they answered the school survey.**

### WD Pupils Outside of Lessons:

Last week:

**Year 5 visited The British Museum.**

The children were taken part in a workshop on Greek myths and some were asked up on stage to help tell the story of Perseus and Medusa. They then spent the rest of the day in the Greek galleries. Ask a member of Year 5 to retell you the story of Perseus and Medusa.

**This week;**

**Year 3 went to The London Museum for their topic 'The Stone Age.'** The London Museum documents the history of London from prehistoric to modern times. During their time there Y3 looked at a real mammoth tooth, bronze axe heads and a variety of flint based tools. Each of these objects told them what life was like for humans in prehistoric London.

**Both classes very much enjoyed their learning outside of school.**

### Teaching and Learning:

**This week,**

**Year 6 have been using the coding program 'Scratch' as part of our Computing Curriculum. It is an internet based program so children can use it at home. Why not let your child teach you a thing or two about computer programming! Remember to make sure your children are always supervised while using internet devices.**
