[Hello Nursery](#) from Ms Yusuf

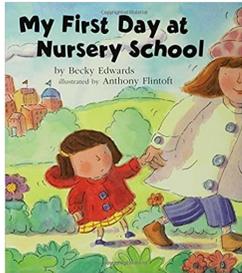

Take a look at the story [My first day at Nursery](#)

Talk about what happened in the story, where was she going? What things did the girl not want to do? I wonder why the little girl was happy at the end of the story?

Can you remember your first day at Nursery?  
What do you like to do at Nursery?  
Who do you like to play with?

Who helps us in nursery?

What things do you like to do at nursery?

[Goodbye Nursery](#) from Ms Yusuf

Provide pens, pencils, crayons, paper or card, mark make about what your child likes doing at Nursery.

Can you remember your first day at Nursery?

Can you draw a picture of what you like to do at Nursery?

Listen to the [Shape Song](#) and listen out for all the different shape names. Sing along and repeat the shape names with your child: circle, triangle, rectangle, square.

Take a look at these shapes, what shapes can you see? Have a look around in your house, what shapes can you see?

These are the shapes I found.

(Rectangle) a tissue box

(Triangle) a slice of cake

(Circle) a plate

(Square) a book

**What shapes can you find in your home?**

| How can I help my child?   | How can I help my child?   | How can I help my child?   |
|--|--|--|
| <p>Encourage children to take the lead when talking about their experiences or the story.</p> <p>If the child can not recall all the events from the story praise them on the parts they do remember.</p> <p>Model sentences to your child, “the little girl plays with the musical instruments, do you play with musical instruments in nursery too”.</p> | <p>Try not to paint or draw for your child. Ask them about the marks they make.</p> <p>At this age, children’s drawings are not clear and they may just make lines and some shapes like this.</p>  <p>That’s fine! Praise your child and ask them to tell you about their marks.</p> <p>When they are in Nursery, children are still developing their pencil grip. Don’t worry if your child uses a pen or pencil like this child.</p>  | <p>At this age your child may not remember the shape names and that’s ok. They are learning to ‘see’ shapes and that’s the important thing.</p> <p>You could cut out a circle, a triangle, a rectangle and a square from cardboard (a cereal box is good for this), then see if your child can match the shape to an object in your home. Model to your child as you look around your home “I have found a clock, it looks like a circle”.</p> <p>Talk to your child about what you see, for example two long sides and two short sides (a table), four short sides (a box), one curved side (a clock or a plate). Your child may not use the words long, short, curved or side but they may point or run their finger around the shape. That is fine!</p> <p>Talk about which objects are similar in shape eg a book, a phone and which objects look different eg a plate.</p> <p><b>We repeat and revisit activities to ensure children are confident with their learning.</b></p> |

In addition to the above activities, play is very important for your child’s learning. [Click here for some ideas to help you with this.](#)

Every day, encourage your child to select and play with the toys they choose for at least 2 hours, play alongside them and comment on what they are doing eg “the car is going over the bridge”

Play with your child but let them be in charge of the play.

Use [exercise videos](#) like this, to help your child stay active.

At nursery, at the end of each day we follow [Monkey Yoga](#). We use this time to focus on our breathing and reflect on all the fun activities we did at nursery.

Limit the time your child spends on electronic devices and always monitor what your child is accessing online.

Read a variety of stories with your child, use your finger to follow the flow of the words, take a look at [Booktrust](#) for a variety of stories to read online.

Play is the highest form of research, we can become whatever we want!
